

Heritage meets innovation

Upgrade without compromise:
**Videofied is now compatible
with ProSeries**

FIRST ALERT

Navigating the 2G sunset

Seamlessly bridging the past and future

For many years, Videofied has been a recognised provider of security solutions, helping businesses with dependable technology. As the industry evolves and the 2G sunset approaches, there is an increasing need for adaptable solutions.

Replacing entire systems is both costly and time-consuming. ProSeries offers a forward-thinking alternative, allowing you to enhance existing Videofied installations without starting from scratch. Designed with backwards compatibility in mind, ProSeries preserves your current setup while equipping it with modern features to meet today's security standards.

With advanced mobile app integration supporting pro-monitoring and self-monitoring,

ProSeries is designed to help maintain your system's effectiveness and efficiency over time

Upgrade your customers existing security system to a solution that's simple, cost-effective, secure, and built to last.

Why choose ProSeries?

Compatibility redefined

As ProSeries offers seamless integration with your existing Videofied installations, there's no need to dismantle or replace an entire system. Instead, you can easily upgrade key components, ensuring your customers security setup stays functional and effective post the 2G sunset.

Enhanced functionality

ProSeries introduces advanced features designed to elevate both installer efficiency and user experience. For installers, the supporting pro-monitoring and self-monitoring provides valuable insights, remote diagnostics, and proactive support – making system management easier than ever. End users can enjoy conveniences such as mobile app control, alarm alerts, and remote access to their system through the Resideo Total Connect 2.0 app.

Technical excellence

ProSeries products like the PROAIOPLUS-EU panel and the PROBOX-EU controller set new standards for reliability and performance. Equipped with cutting-edge technology, they support a wide range of sensors, smart integrations, and advanced communication protocols. ProSeries also meets rigorous industry certifications, including EN 50131, CE, UKCA and NF&A2P – ensuring compliance and peace of mind.

Technical highlight

The PROAIOPLUS-EU panel combines a 7-inch touchscreen, powerful controller, and secure communication in a sleek, all-in-one design. With support for up to 250 zones and multiple partitions, it's ideal for a wide range of applications.

Control / security panels

Touchscreen Security Panel

PROAIOPLUS-EU

- **Tamper protected**
Cover and wall tamper (if wall mounted)
- **7" LCD touch screen with built-in camera**
- **127 intrusion devices, 4 partitions**
250 Security and Life Safety zones
- **96 users, 4000 event logs**
- **Dual path comms**
Built-in WiFi module, optional LTE communicators
- **36 hours backup battery**

Control / security panels

Security Panel

PROBOX-EU

- **Tamper protected**
Cover and wall tamper (if wall mounted)
- **Hidden panel**
- **127 intrusion devices, 4 partitions**
250 Security and Life Safety zones
- **96 users, 4000 event logs**
- **Dual path comms**
Optional LTE communicators and WiFi modules
- **48 hours backup battery**

Upgrade without hassle

Videofied integration with ProSeries

Transitioning to ProSeries is a seamless process, designed to minimise disruption while maximising benefits. Installers can quickly and efficiently upgrade existing Videofied systems, saving time and reducing costs.

ProSeries is engineered for effortless compatibility, accommodating legacy systems while providing a flexible and scalable solution tailored to your needs.

| Videofied SKU | Videofied SKU name | Videofied category | ProSeries Product SKU equivalent |
|---------------|---|--------------------|--|
| VT100 | VT100 Proximity Tag | Badge | Update to KTAG5* |
| BR250 | BR250 Outdoor Proximity Tag Reader | Keypads/ Readers | Update to PROSIXLCDKP-EU* or PROSIXLEDKP-EU* |
| XMA210 | XMA210 Keypad – Vertical | Keypads/ Readers | |
| XMB210 | XMB210 Keypad – Vertical & Tag Reader | Keypads/ Readers | |
| WMA210 | WMA210 Keypad – Horizontal | Keypads/ Readers | |
| WMB210 | WMB210 Keypad – Horizontal & Tag Reader | Keypads/ Readers | |
| W210 | W210 Control Panel | Panels | Update to PROBOX-EU or PROAIOPLUS-EU |
| WIP210 | WIP210 Control Panel | Panels | |
| WIP220 | WIP220 Control Panel | Panels | |
| WIP230 | WIP230 Control Panel | Panels | |
| XL200GPRS | XL200GPRS Control Panel | Panels | |
| XL200L | XL200L Control Panel | Panels | |
| XT-IP240 | XT-IP210 LTE/4G Indoor Control Panel | Panels | |
| XTO-IP240 | XTO-IP210 LTE/4G Outdoor Control Panel | Panels | |
