Honeywell Home

FIRST ALERT

BRK

Now, more than ever, homeowners seek security, comfort and convenience. And we're committed to this smart home technology by designing a collection of products and solutions that protect what matters most.

Experience a whole home with our offerings

Simplifying whole home security, comfort and convenience at every level.

Comfort, Air, Security, Energy, Water, and Life Safety

One App Connects Customers To Their Home

Easily integrated solutions that makes home safer, smarter, and more resource efficient.

Comfort

Comfort you can feel

We're providing air comfort solutions to meet your customer's needs. — From simple programmable and non-programmable thermostats to smart WiFi thermostats that utilize room sensors to help eliminate hot and cold spots. Plus, air cleaning, energy and heat recovery, fresh air intake and zoning products to take customer comfort to new levels.

Comfort

From smart WiFi thermostats with room sensors and humidification control to programmable and non-programmable thermostats, Resideo has a product to meet your home building needs

Connected Thermostats

• T10+: THX321WFS, THX321WF

• T6 Pro Smart: TH6320WF, TH6220WF

• T6 Pro Z-Wave: TH6320ZW

Non-Connected Thermostats

• T6 Pro: TH6320U, TH6220U, TH6210U

• T4 Pro: TH4210U, TH4110U

Comfort (Zoning)

Help your customers reduce their energy consumption and gain control over their temperature and comfort with applications up to four zones.

• TrueZONE® Panels & Kits – HZ Series

• TrueZone® Round Supply Dampers – ARD Series

• TrueZone® Rectangle Supply Dampers – ZD Series

• TrueZone® Bypass Dampers – CPRD Series

Comfort (Ventilation)

Have fresher air in your home with products designed for humid or cold climates to help eliminate heat loss or prevent excessive moisture.

• EARD Fresh Air Damper with T10+ Thermostat

• Energy Recovery Ventilator (ERV) and Heat Recovery Ventilator (HRV)

• Fresh Air Ventilation Kit – Y8150 with Fresh Air Damper/Actuator, 24V Transformer, W8150 Ventilation Control

• Digital Bath Fan Control – HVC0001

Comfort (Filtration and Humidity)

Provide cleaner air and maintain humidity by capturing a high percentage of harmful airborne particles, including smoke, dust, pet dander and more from the air.

- F100 Series Media Air Cleaner (MERV 11)
- F200 Series Media Air Cleaner (MERV 13)

• F300 Series Electronic Air Cleaner

• 24V UV Air Purifier – UV2400 Series

• Advanced Electrode Steam Humidifier – HM750

• Bypass Humidifiers – HE Series

• Whole-Home Dehumidifiers - DR Series

Sustainability

Little Choices with Planet-Sized Benefits

Sustainability is a journey that starts where we are now and leads to a better home for everyone. We all have decisions to make on how we get there – but we don't have to make them by ourselves.

We're creating more responsible products and services – enabling people to make choices that contribute to a reduction in their carbon impact. Together, all those little choices add up to a meaningful difference in the world around us.

8-16% energy saved.

With our T5/6 Smart Thermostats, homeowners saved \$83-154 annually on heating and cooling bills through high use of the devices' scheduling features.*

* T5/6 thermostats with a high use of the scheduling features ran central heat pumps 8-14% less, gas furnaces 13-16% less, and air conditioners 10-13% less than basic connected thermostats with a low use of the scheduling feature, observed from over 5000 similar homes in IN & OH in 2019.

**Resideo makes
17 ENERGY
STAR-certified
thermostats, more than
any other company in the
market today.***

Water

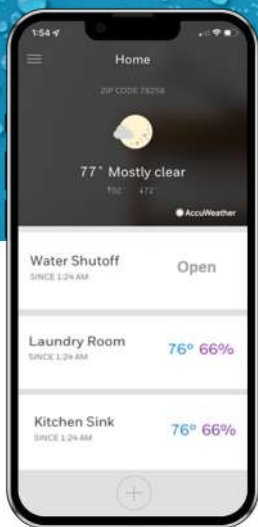

Water leak detection equals damage protection

Water leaks are always an unwelcome surprise.

— That's why we provide water leak awareness and protection devices across the home. From WiFi alerts to water shut offs, here's a range of smart protection.

Water

- L1 WiFi Water Leak and Freeze Detector
- L2 WiFi Water Sensor and Switch
- L5 WiFi Water Leak Shutoff Valve

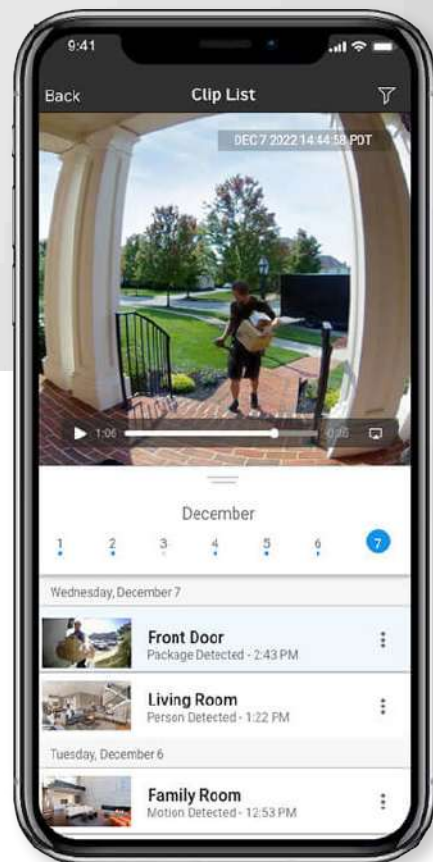

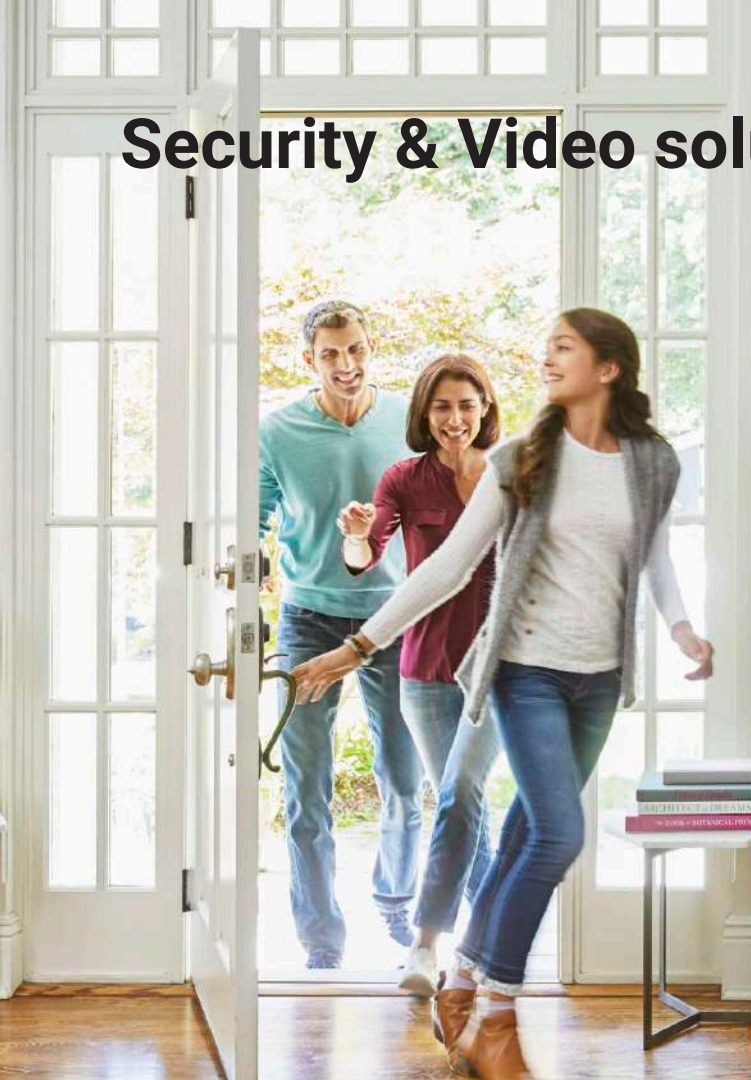

• Pressure Regulating Valves (PRV) DS05, DS06, FK06 Series

Resideo water leak and freeze detectors help save **2.4 million gallons of water** and help prevent an estimated **\$2.5 million in insurance claims annually.***

* Estimated gallons saved and insurance claims based on average flow rate, duration of leaks, and the average cost of a water leak claim. Insurance Information Institute reports both the annual frequency of water claims already used in the calculation and the average claim severity in dollars.

Security & Video solutions

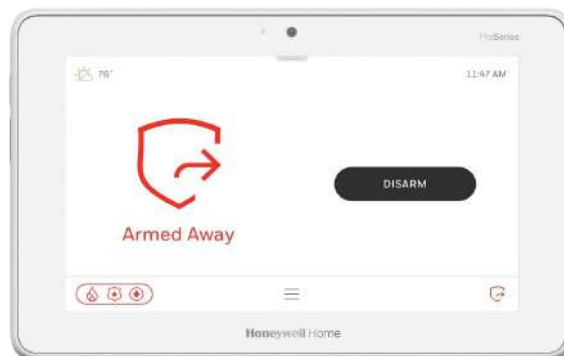

**Keeping you
in the know
on the go**

Our new, advanced event detection camera technology — can distinguish people, packages, vehicles and animals. So your customers can say goodbye to potential false alarms and hello to greater peace of mind.

Security & Video solutions

With connected options to automate system control, wireless sensors and more, our security systems provide you with sophisticated solutions designed to work together seamlessly.

• HD Video Doorbell + HD Outdoor Camera

• Proseries 7in Touchscreen

Life Safety

Faster and smarter means better fire safety

BRK's Precision Detection Technology – makes our smoke detectors smarter. They are sensitive enough to provide an early warning, allowing more reaction time. Also, it means fewer nuisance alarms.

Life Safety

EFFECTIVE DATE CONFIRMED - JUNE 30, 2024 PER UL BULLETIN

UL 217 8th Edition Affects all smoke and combination alarms

NEW TEST PARAMETERS:

- 1 Responsive to changes in home and finish materials
- 2 More stringent nuisance alarm criteria
- 3 More than 200 technical changes to the standard

PRECISION DETECTION TECHNOLOGY

Precision Detection is First Alert's advanced sensing technology that will be used for all smoke and combination alarms in that comply with UL 217 8th edition revised smoke alarm standards.

Early Warning

There have been significant changes in home furnishing and finish materials over the past 30 years. Most modern-day household furniture are made from synthetic materials, which burns faster. FirstAlert Precision Detection technology gives you more time to escape in the event of an emergency as they detect smoke faster and provide early warning.

Less Cooking Nuisance

FirstAlert Precision Detection technology smoke alarms will help distinguish between nuisance alarms and a fire emergency. Three of every five home fire deaths resulted from fires in homes with no working smoke alarms and the #1 reason why people disable smoke alarms is due to nuisance cooking alarms. (UL)

• 10-Year Battery Smoke Alarm

• BRK Interconnect Hardwire Smoke Alarm with Voice Alerts

• Hardwired Smoke and Carbon Monoxide Alarm with Battery Backup

• Rechargeable Compliance Fire Extinguisher 2-A:10-B:C

• EZ Fire Spray

Builder Partnerships

The Resideo BuildSmart Program helps you navigate and optimize the building experience, while growing your competitive advantage. Now you have access to a broad portfolio of trusted, end-to-end, whole home solutions — all backed with the expertise and support you need to help you build your business.
